## **Professional Profile:**

Experienced user interface designer and web developer with over 3 years of experience developing full software lifecycles, wireframing, and creating application architecture for media compatibility. Skilled in JavaScript, HTML, CSS, and frameworks such as Angular and Ionic, with a proven track record of producing dynamic and interactive user interfaces. Also experienced in delivering high-quality documentation and collaborating directly with clients. Additionally, 1.5 years of experience in teaching engineering students, creating engaging instructional materials, and fostering strong web development and user interface design skills. Thrives in a collaborative team environment and excels at problem-solving.

## **Professional Summary:**

- Experienced front-end developer with expertise in HTML, CSS, and JavaScript, as well as back-end development using Express.js and Sequelize.
- Skilled in creating responsive, adaptive, and mobile-friendly websites that work across different devices and browsers.
- Proficient in using popular web development tools such as Angular 7+, Ionic 2+, Bootstrap, and Node.js.
- Successfully implemented REST APIs that improved application integration and reduced costs.

- Worked on cross-browser compatibility issues and gained experience in debugging with Safari, Brave, Mozilla Firefox, and Google Chrome on multiple devices.
- Designed user interface (UI) and user experience (UX) strategies and translated findings into effective UI designs.
- Experienced in page templating systems, session data storage, caching, and inter-process communication.
- Excellent interpersonal, communication, time management, and team skills, able to work efficiently under pressure and meet project deadlines.
- Developed instructional materials to impart information to end-users and new developers.
- Successfully updated Angular versions without affecting the current flow.
- Experienced as a trainer for new joiners in Angular.

### **UI Development life Skills**

- Proficient in front-end technologies such as HTML 5, CSS 3, and JavaScript, with extensive experience in Table Less Design for CSS positioning.
- Skilled in version control systems such as GitHub, Bit Bucket, and Gitlab, and experienced in Scrum/Agile Development Methodologies using Jira, Atlassian.com, and Backlog.com.
- Developed Responsive UI screens for customer processes, bill and ship to screens, customer search results pages, front page customization, store management, and customer dashboard pages using Bootstrap.
- Enhanced existing applications utilizing Angular 7+, including creating HTML navigation menus that are role-based and dynamically derived from the database.
- Implemented Cascading Style Sheets (CSS) to improve the look and feel of Angular web pages.
- Experienced in participating in the Software Development Life-Cycle (SDLC), including preparing Requirement Specification documents, design documents, Analysis, User Training documents, and Technical Help documents.

### **Technical Skills**
